

# Careers Programme Overview 2025-2026

## St. Bernard's High school

### Vision Statement

Our students will leave St Bernard's High School with the ability to make informed choices about their future, leading to better life chances and opportunities. They will gain the skills and experiences necessary to make them stand out, regardless of their backgrounds and starting points.

**Contact:** Mrs. L Phillips

### Milestones and Learning Outcomes

### Key Events and Experiences

#### Year 13

Post-18 Transition  
Year 13 students will evaluate learning and career pathways, understand recruitment processes and workplace cultures, and plan clear, ambitious next steps in education, training or employment.

#### Year 12

Starting KS5  
Year 12 students will demonstrate independence by actively managing their learning and personal development. They will reflect critically on their identity, values and achievements, communicate these to others, and seek challenges that support growth.

#### Year 11

Post-16 Transition  
Year 11 students will build confidence in taking responsibility for their learning and aiming for positive outcomes. They will reflect on their achievements, experiences and personal values, and actively seek feedback and support to make a positive Post-16 transition.

#### Year 10

Starting KS4  
Year 10 students will explore career options in more depth, research labour market information and learning pathways, and understand how skills and qualifications link to future opportunities. This will be linked to CV building and engagement with meaning work experience.

#### Year 9

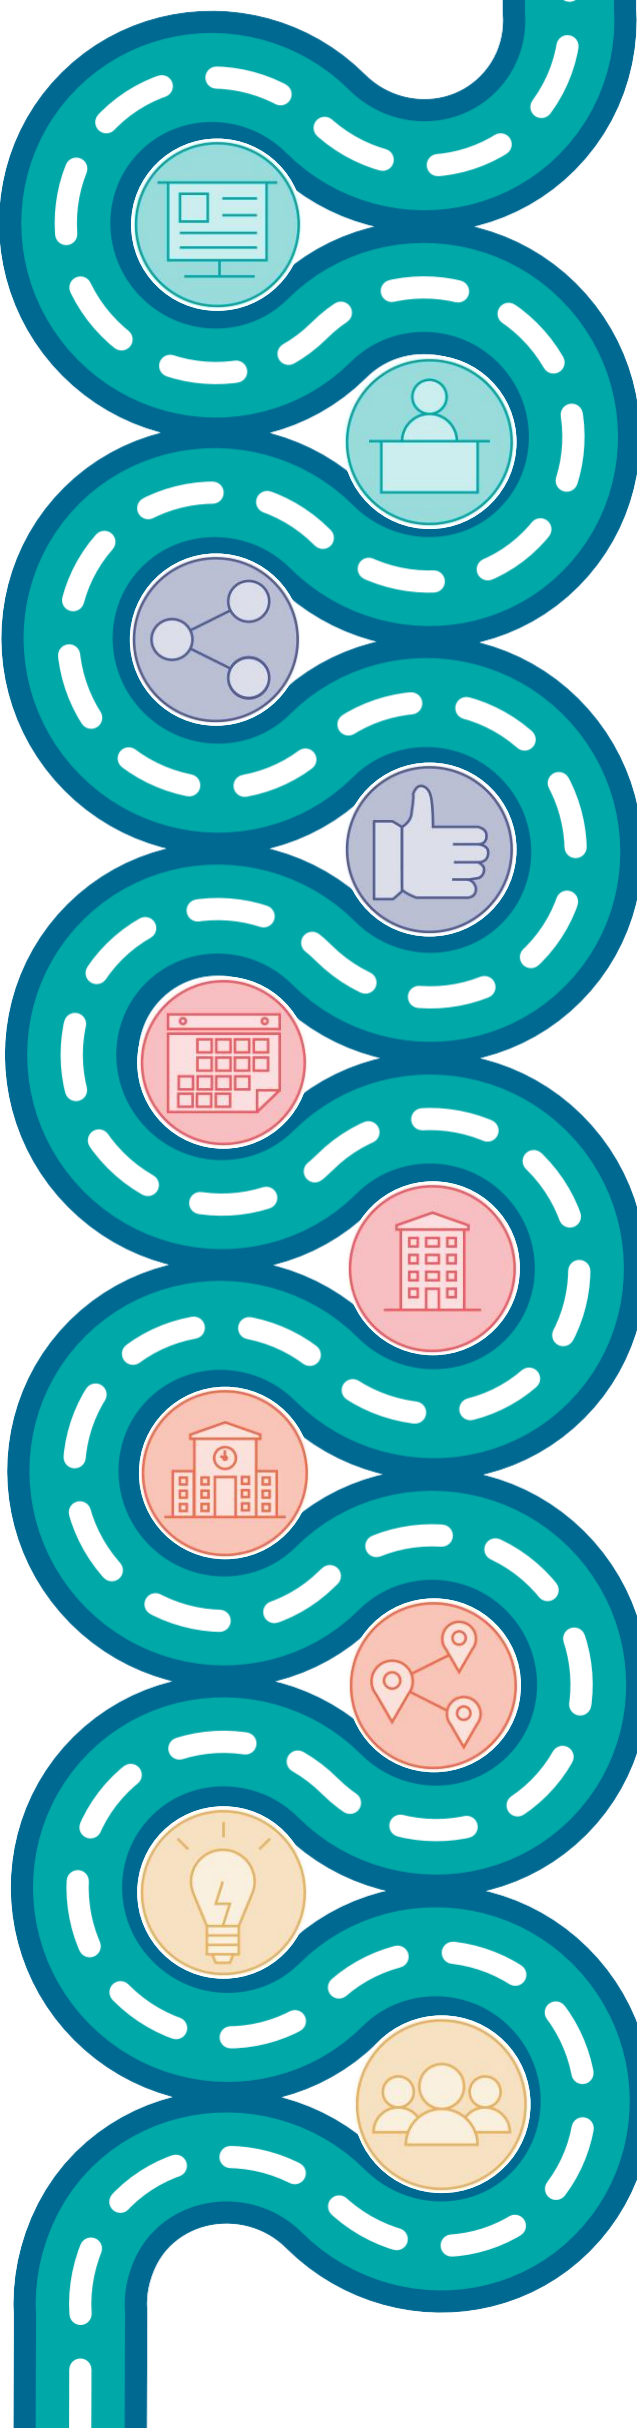

Post-14 Transition  
Students will learn to respond positively to help and feedback, try new challenges, record achievements, and recognise where to find information and support for learning. They will engage to research choices and make good decisions using carers assessments to support their future choices.

#### Year 8

Students will be aware of the importance of learning, skills and qualifications to develop their career-readiness. They will start to explore a broad range of jobs and sectors.

#### Year 7

Starting KS3  
Students will begin to understand themselves as learners by recognising their strengths, interests, heritage, identity and values. They will be introduced to the concept of 'careers' and begin to explore subject and career options.
